Agon is

one of the largest
pharmaceutical Consultations
Company in MENA Region.

For more than 10 years we have been committed to creating industry leaders who are capable of positively impacting business results at their organizations in a rapidly-changing global market place. To achieve this mission, we've built a strong foundation with a global infrastructure of consultants and experts to provide the highest quality consultations and trainings to the pharma industry professionals.

Agon's concept has always been about providing the best services to our partners in the pharmaceutical industry. Agon's services and projects execution methodology is built on the basis of bringing the best and latest solutions to the region so that the pharmaceutical manufacturers and distributors can always be in a state of compliance.

This applies from the moment they take the investment decision till they are certified by different national and international authorities. Agon is built to be a strategic partner for you and a friendly competent support for your team.

Becoming the partner of choice for all pharmaceutical and biotech industries, medical device, biotech industries **in the Middle East and North Africa** for providing unparalleled services.

To create industry leaders capable of positively impacting business results at their organizations in a rapidly-changing global marketplace.

Why Agon?

01

The **highly-qualified** consultants, instructors and services/ programs designers who deliver a unique blend of the latest industry practices along with a deep understanding of learning principles.

02

Tailormade services designed to achieve the compliance state that all manufacturers/distributors have to meet.

03

The **convenient** course formats addressing both personal schedules and organizational concerns.

04

The **training effectiveness evaluation techniques**, famous among industry professionals, to measure the success of any training courses delivered.
